UNDERGRADUATE MINOR IN
ENGINEERING MANAGEMENT
BUSINESS TRACK

Become a Leader in Engineering Management

The Engineering Management minor is designed to provide students with non-Business majors with an understanding of the principles of managing organizations involved in engineering activities and technology development including:

- Planning, organizing, allocating, and controlling activities and resources
- Project management
- Operations management
- Entrepreneurship

For more information visit undergrad.business.uconn.edu/minors

POLICIES

- Students may earn only one minor in business disciplines. A student may earn a second minor if it is offered jointly by the School of Business and another School or College, and all coursework used to satisfy that second minor is from non-Business coursework. View the University Catalog for additional details.
- Non-Business majors may attempt no more than 18 credits (approximately 6 courses) of 3000/4000-level coursework offered by the School of Business, which includes work transferred in as equivalent to courses offered by the School of Business. View the University Catalog for additional details.
- Unless a higher standard is noted in the description of a specific minor program, completion of a minor requires that a student earn a “C” (2.0) grade or better in each of the required courses for that minor.

REQUIREMENTS

RECOMMENDED COURSE SEQUENCE

<table>
<thead>
<tr>
<th>Junior 1st Semester</th>
<th>MEM 2221 Principles of Engineering Management or BADM 3761 Operations Management</th>
</tr>
</thead>
<tbody>
