

UNDERGRADUATE MINOR IN ENGINEERING MANAGEMENT

*Open only to non-Business students**

Become a Leader in Engineering Management

The Engineering Management minor is designed to provide students with non-Business majors with an understanding of the principles of managing organizations involved in engineering activities and technology development including:

- Planning, organizing, allocating, and controlling activities and resources
- Project management
- Operations management
- Entrepreneurship

POLICIES

- Students may earn only one minor in business disciplines. A student may earn a second minor if it is offered jointly by the School of Business and another School or College, and all coursework used to satisfy that second minor is from non-Business coursework. View the University Catalog for additional details.
- Non-Business majors may attempt no more than 18 credits (approximately 6 courses) of 3000/4000-level coursework offered by the School of Business, which includes work transferred in as equivalent to courses offered by the School of Business. View the University Catalog for additional details.
- Unless a higher standard is noted in the description of a specific minor program, completion of a minor requires that a student earn a "C" (2.0) grade or better in each of the required courses for that minor.

REQUIREMENTS

RECOMMENDED COURSE SEQUENCE	REQUIRED COURSE WORK
Junior 1st Semester	One (1) operations and production course from the following list: <ul style="list-style-type: none"> • OPIM/BADM 3104 Operations Management • ME 3222 Production Engineering
