

UNDERGRADUATE MINOR IN ENTREPRENEURSHIP

Not open to Management majors

Take Your Innovative Business Ideas to the Next Level

Entrepreneurial companies are at the core of economies throughout the world. In the United States, entrepreneurial firms employ nearly 60% of our workforce, account for 66% of all job growth, and produce half of our country's gross domestic product.

The Minor in Entrepreneurship is designed to offer a basic understanding of entrepreneurship topics. Students take various Business courses including Opportunity Generation, Assessment, and Promotion; Foundations of Venture Capital; and Advanced Venture Investing.

POLICIES

- Courses towards the minor may not be simultaneously used towards another minor, and only one class used to satisfy this minor may be simultaneously used towards the student's major requirements.
- Credits from department approved internships focused on entrepreneurship may be used to satisfy the two additional 3-credit, 3000/4000-level courses for the minor. Courses taken through the Education Abroad program, accredited at the MENT 3000/4000 level and approved by the Management and Entrepreneurship Department as courses with entrepreneurship content may satisfy the requirements of this minor.
- Non-Business majors may attempt no more than 18 credits (approximately 6 courses) of 3000/4000-level coursework offered by the School of Business, which includes work transferred in as equivalent to courses offered by the School of Business. View the University Catalog for additional details.
- Students may use the online permission number request form when unable to self-enroll in a course used for the minor, noting all pre-requisites must be met to be granted permission to take a course
- Unless a higher standard is noted in the description of a specific minor program, completion of a minor requires that a student earn a "C" (2.0) grade or better in each of the required courses for that minor.
